IA Diagram:

Showcase:

[previous featured] -> Will go back one slide in the slideshow of featured items

[featured items] -> Shows a number of items being featured daily/weekly/monthly

[next featured] -> Will go forward one slide in the slideshow of featured items

[new releases] -> Will have a list of games that were released in the past week or two

[Videos showcasing big, upcoming titles] -> Shows big/hyped game trailers (possibly as an ad space for purchase by the game company/ies)

User selection:

[Gamedownload Icon (homepage link)] -> will redirect users to the home page

[Sign in/up] -> popup window where users can sign in or sign up so they can purchase items

[Top rated] -> A list of games that users have rated highly, can be sorted by genre

[Search] -> Allows the user to search for a specific item/title/genre/developer

Information/troubleshooting info:

[Report problem] -> Allows for users to report issues/fraudulent items to create a better website

[About gamedownload] -> Contact information and HQ address

Sales:

[Cart] -> Allows users to see what they have selected for purchase, edit what they have selected, clear their selections, and confirm purchases

[top sellers] -> A list of games that have sold a lot of copies in the past 72 hours (number determined by the total number of all sales in the past 3 days)

[On sale] -> a list of games that have gone on sale for a limited time

[Upcoming releases] -> A list of the games being released this month
